

INJECTION MOULDING SOLUTIONS

MANUFACTURING &
BESPOKE DESIGN

Problem Solving - It's in our DNA

JETPRESS.COM

Established in 1977, JET PRESS is a leading supplier of fasteners, industrial components and bespoke solutions. We work closely with our customers to build long-term relationships and deliver value to their projects.

FULL SERVICE PROVIDER

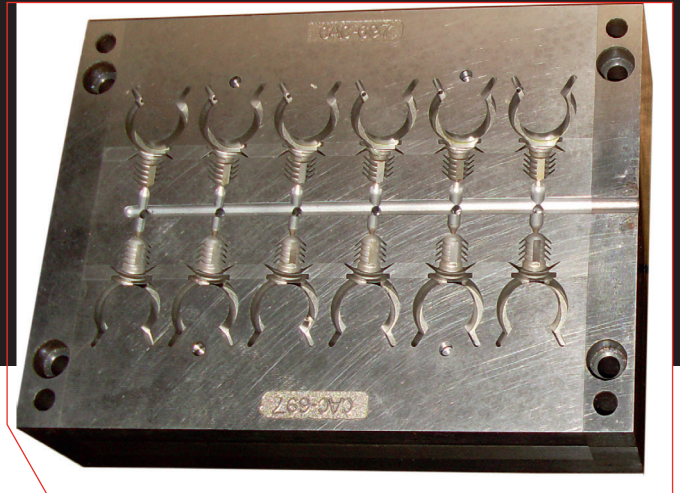

In 2022, the JET PRESS group acquired Acorn Mouldings, a plastic injection moulding company. We have been a partner with Acorn Mouldings for many years and this acquisition strengthens JET PRESS's position in the market as a full-service provider, offering end-to-end solutions for custom manufacturing needs.

The integration brings years of experience and expertise to the JET PRESS group, enhancing its ability to provide high-quality and cost-effective solutions to its customers. With this acquisition, JET PRESS can now provide an even broader range of services, including design, prototyping, and production of custom plastic parts.

MANUFACTURING CAPABILITIES

Locally based in Shirebrook, Derbyshire, our machine capacities range from 25 tonne to 200 tonne. We use high-quality materials and adhere to strict quality control procedures throughout the manufacturing process.

- A full design service
- 3D printing of prototypes
- Plastic parts prototyping
- Plastic parts manufacturing
- Mixed material components

Our engineering design team works closely with you to find the right design for your application. We are committed to consistently providing our customers with a high level of service and finding the solution that our customers are looking for.

SOLVING YOUR APPLICATION ISSUES

With over 20,000 stocked products, we can identify the fastener or component for your application and if we don't stock the right part, we can design and manufacture exactly what you need.

SAVING YOU MONEY

Problem-solving involves delivering the most cost-effective solution. We factor in manufacturing costs, assembly time, maintenance, weight saving, material costs and recycling, along with the cost of the part.

SAVING YOU TIME

We understand that you have deadlines. Share your schedule and milestones with us and we will do everything to make sure you deliver on time.

DESIGN CAPABILITIES

With each design we take into consideration not only the functional requirements, but factors including manufacturing, maintenance, safety and sustainability.

We use UK based toolmakers allowing for full control of tool design and cost. We can design tools with interchangeable inserts allowing for quick and easy modifiable tooling enabling us to efficiently respond to any subsequent component changes.

Additionally, we have the ability to utilise Bolster cassette tools to minimise your tooling costs.

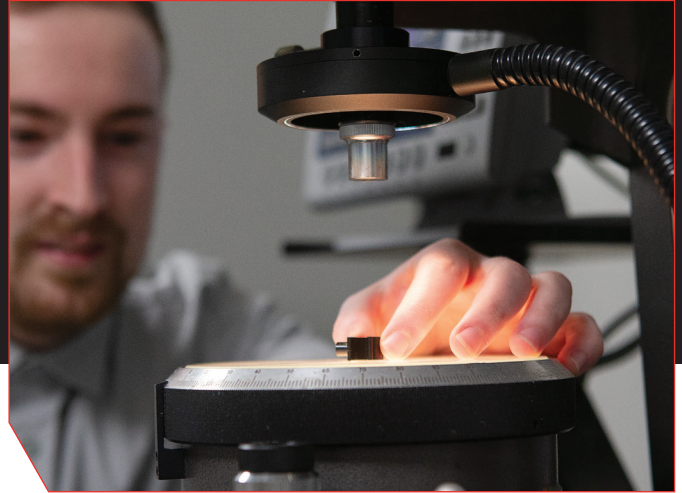

Powder-based colour mixing also gives us the ability to make small volume runs cost-effectively and efficiently whilst ensuring your colour matched parts suit your exact requirements.

VALUE-ADDED BENEFITS

Our team will identify ways of working with you that will improve your production process. JET PRESS brings this wealth of knowledge and experience to your project, supported by our comprehensive services:

- Kitting and packaging - all the elements you need for an assembly
- Stock holding and stock management solutions
- Spread costs
- Sub-assemblies and in-house reworking
- Reduce production and installation time
- Shorten supply chain
- Avoid multiple supplier management costs
- Special packaging
- Sample service
- CAD models/technical drawings

JET PRESS have a team dedicated to quality ensuring every fastener and every component you receive meets high standards.

QUALITY ASSURED

We meet a wide range of quality standards for industry and will support you with all the documentation you require to demonstrate quality compliance.

- ISO9001:2015
- ISO14001:2015
- ISO45001:2018
- Production Part Approval Process (PPAP)
- Initial Sample Inspection Reports (ISIR)
- Failure Mode and Effect Analysis (FMEA)
- International Automotive Task Force (IATF) – in progress

SUPPLY CHAIN RESILIENCE

The importance of a robust supply chain has never been greater. We constantly work on building an intelligent supply chain to ensure we can always deliver to our customers.

CONTACT US

Success over the last 40 years has been delivered by the people at the heart of our business. The relationships they've established and nurtured is why we exist and why we're different. We're in it for the long-term, as a partner in the success stories of our customers and suppliers alike. Our business, any business is people.

Please contact us, our experienced team of engineers is here to support application specific enquiries.
